

Packing Solutions

Saving Stacks of Cash

As part of the offering from its Packing Solutions Division, Interfood has the Buhmann PF200 automatic stacking machine which reduces labour by some 50% and provides a typical return on investment (ROI) in just 6-12 months.

With the current economic climate bringing issues with labour availability and increased labour costs, there has never been a better time to automate end of line packing. The Buhmann Servofeed PF200 offers flexible pack stacking which can be operated by one person at speeds of up to 140 packs per minute.

- Precise and gentle product stacking
- Compact, space-saving design
- Up to maximum package sizes of 200mm (w) x 240mm (l) x 150mm (h)
- Stacks individual packages for manual subsequent processing
- Can be used as a counting aid to fill cardboard trays or crates
- Fits into existing line, with easy installation

- Butchery Division
- Fresh Meat Portioning Division
- Preparation Division
- Curing to Clipping Division
- Cooking & Cooling/Pasteurisation Division
- Slicing Division
- Packing Solutions Division**
