

Skinner ASD 460

Compact and efficient.

Fully-automatic removal of fat layers from loins and cutlets in predefined strengths.

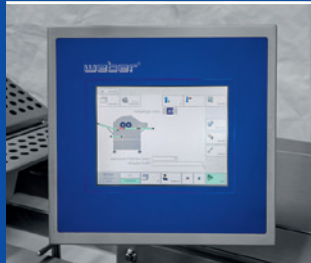

weber[®]
The High Tech Company

Powerful

- › Fully-automatic recognition of the fat strength using Weber camera technology, with programmable controlled movement along longitudinal profile
- › Continuous work process
- › Sensor-controlled electronic spring for perfect pressure application

Flexible

- › Product-specific blade holders
- › Programmable movement along the longitudinal profile
- › Camera-controlled thickness setting
- › Combinable with pre-installed derinder

Maximum yield

- › Uniform fat layers
- › Considerable minimisation of reworking (trimming)
- › Back bacon instead of small trimming cuts
- › Clearly improved product image for cooking after slicing

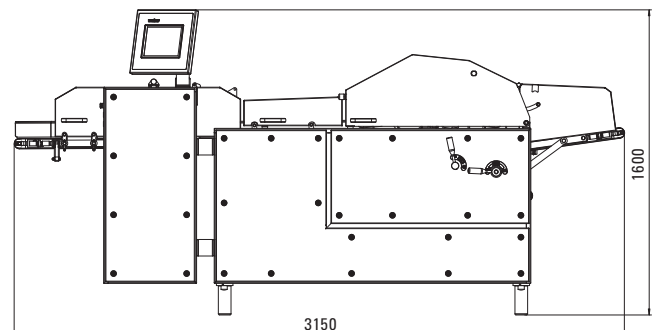

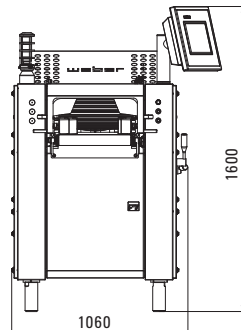

Technical data

ASD 460

Motor output (kW):	1.1 (in addition: 2x Servo 2.7 A 3.25 Nm 1.2 kW)
Cutting width (mm):	456
Cutting thickness (mm):	0 – 20
Net weight (kg):	700
Power supply (V/Hz/A):	400/50/16

Options:

- › Special Weber transport rollers
- › Product-specific blade holders
- › Product-specific pressure devices for products with and without bones
- › Fixed or adjustable guide plates for supply and output belts
- › Right camera system
- › Special tension rollers
